

Outline Conference Programme*

SUNDAY, 14 JUNE 2026

14:00 Exhibition set-up

16:00 Delegate registration

MONDAY, 15 JUNE 2026

07:30 Delegate registration

08:45 Welcome address: conference organisers

09:00 Asia cement outlook: market drivers, investment trends and the technology agenda

09:30 Tracking industry sustainability indicators to 2030 and beyond

10:00 SCG Cement's regional decarbonisation map

10:30 Coffee break

11:00 Expert panel: application of low-carbon cement manufacturing technologies in Asia
 • Best current practices leveraging SCMs, calcined clay, alternative fuels and digitalisation
 • Lighthouse decarbonisation projects in Asia
 • Future technologies: potential for electrification and CCUS
 • Cement standards, government policy and green finance

12:30 Lunch

14:00 Spotlight on Asian exporters – reports from Vietnam, Indonesia and Thailand

14:30 China industry update 2026

15:00 Global trends and development in slag, fly ash and SCMs

15:30 Coffee break

16:00 Role of the cement industry in municipal solid waste management in Southeast Asia

16:20 Preparation, storage and dosing: refuse-derived fuel, biomass and municipal solid waste

16:40 Advanced alternative fuel combustion technologies – case studies

17:00 Co-firing alternative fuels with hydrogen

TUESDAY, 16 JUNE 2026

09:00 Calcined clay production and the manufacture of next-generation ternary cements

09:20 Advanced grinding systems and high-efficiency classifiers for low-carbon cements

09:40 Separate and co-grinding SCMs

10:00 Target net zero-optimising roller press performances

10:30 Coffee break

11:00 Advanced process control: AI-based optimisation of kiln and mill operations

11:30 AI/ML for plant maintenance

12:00 Next-generation clinker cooler technology

12:30 Lunch

14:00 Renewable energy and industrial battery storage

14:30 Emissions control technologies: dedusting and filtration, NO_x reduction and emissions compliance

15:00 Refractory solutions for when plants increase their alternative fuel utilisation/co-firing

15:30 Coffee break

16:00 Conveying, storage and bagging

16:20 Grinding plant and new terminal design

16:40 Predictive planning in cement logistics: optimising for net zero and operational excellence

19:30 Gala dinner and entertainment

WEDNESDAY, 17 JUNE 2026

09:00-17:00 Tour of SCG's Taluang Cement Plant.

*Conference programme is subject to change.
