

Conference Programme*

SUNDAY, 14 JUNE 2026

14:00 Exhibition set-up

16:00 Delegate registration

MONDAY, 15 JUNE 2026

07:30 Delegate registration

08:45 Welcome address: conference organisers

09:00 Leading the low-carbon transition – SCG's cement decarbonisation roadmap in Southeast Asia: Surachai Nimlaor, President – SCG Cement Co, Ltd (Thailand)

09:30 The cementitious revolution: reshaping value, assets, and advantage: Sebastian Reiter, McKinsey & Co (Germany)

10:00 How will the Middle East conflict affect the construction industry?: Harry Murphy Cruise, Oxford Economics (Australia)

10:30 Coffee break, sponsored by Köppern

11:00 Accelerating decarbonisation – from strategy to competitive advantage: Dr Raju Goyal, Head of Group Technical Services, INSEE – Siam City Cement Co, Ltd (Thailand)

11:30 Cementing sustainability – solutions coming to life: Bodil Recke, ABB (Switzerland)

12:00 CCUS in cement – translating European experience into Asian projects: Dr Haoxin Xu, Ramboll (Denmark)

12:30 Lunch, sponsored by Fives

14:00 Turning point – China Cement Industry 2026: Grace Chen, Deputy Secretary General, China Cement Association (China)

14:30 Bangladesh cement industry update and regional SCM trade: Ikram Ahmed Khan, Co-founder & Managing Director, Shun Shing Group (UAE/Hong Kong)

15:00 Vietnam country outlook – export markets and supply and demand evolution: Dong Le, Managing Director, FiinGroup (Vietnam)

15:30 Coffee break, sponsored by Köppern

16:00 Cement beyond carbon – alternative fuel solutions for the calciner and main kiln burner: Carsten Eckert, KHD Humboldt Wedag GmbH (Germany)

16:20 Fuel flexibility reaches new heights: Ning Shen Tan, Fuller Technologies (USA)

16:40 UC3® technology – hydrogen utilisation for improving combustion efficiency: Luis Novais, UTIS (Portugal)

17:00 Solutions for alternative fuel feeding and raw material handling system: Claus Weyhofen, BEUMER (Germany)

TUESDAY, 16 JUNE 2026

08:45 Enhancing SCM performance and economics with activation technologies: Peter Hoddinott, Independent Consultant (UK)

09:20 Improving the performance of blended cement through the use of nano materials: Dr Raju Goyal, INSEE – Siam City Cement Co, Ltd (Thailand)

09:40 Unlocking the potential of calcined clay systems through advanced cement additive technologies: Alejandro Velez, Sika AG (Switzerland)

10:00 Target net zero-optimising roller press performances: Kaushik Ghosh, Köppern GmbH & Co KG (Germany)

10:30 Coffee break

11:00 Real-time optimisation at the cement plant: Ioannis Sandis and Tejas Maru, CemAI (USA)

11:20 25 years of AI in cement – de-veloping AI process control: Dirk Schmidt, De-Velop/Kima/Xoptix (Vietnam)

11:40 100% machine availability! This is not a dream, this is a strategy: Thachanan Charoensahakitkul, Dalog (Germany)

12:00 Predictive planning in cement logistics – optimising for net-zero: Sebastian Zeitler, INFORM (Germany)

12:30 Lunch

14:00 Action and progress in a changing world: Paul Adeleke, GCCA (UK)

14:30 Asia Cement's decarbonisation pathways – renewable energy and low-carbon products: Hakan Uvez, Asia Cement Public Co, Ltd (Thailand)

15:00 Fives' advanced technologies for decarbonising cement production: industrial case studies: Farah Diab, Fives (France)

15:30 Coffee break

16:00 Reducing cost of operation by implementing chlorine by-pass: Hans Jorgen Nielsen, LV International (Thailand)

16:20 ETA Cooler – going green, positioned for profit: Andre Vos, Claudius Peters (Germany)

16:40 Ensuring long-term stability of the transition zone with optimised brick design: Wittaya Yaipimai, The Siam Refractory Industry Co, Ltd (Thailand)

19:30 Gala dinner and entertainment, sponsored by SCG Cement

WEDNESDAY, 17 JUNE 2026

08:00-17:00 Plant tour: Ta Luang (SCG Cement)

*Conference programme is subject to change.

“Delivering business insight, market knowledge and technical expertise to the global cement industry for over 30 years.”

Conference and exhibition organised by:

International
