

Cemtech ASIA 2025

CONRAD HOTEL | SEOUL, SOUTH KOREA | 9-12 JUNE 2025

Outline Conference Programme*

MONDAY, 9 JUNE 2025

14:00 Exhibition set-up

16:00 Delegate registration

TUESDAY, 10 JUNE 2025

07:30 Delegate registration

09:00 Welcome from the conference organisers:
Thomas Armstrong, Managing Editor, International Cement Review (UK)

09:30 Keynote address: Geun-Sik Jeon, President, Korea Cement Association (South Korea)

10:00 South Korea's strategic plan for achieving carbon neutrality by 2050: Eui-Chul Kim, Director, Technical Development Division, Korea Cement Association (South Korea)

10:30 Coffee break

11:00 Decarbonisation roadmap for the Indian cement sector – net zero CO₂ by 2070: Samanvaya Reddy, GCCA India, (India) and Girish Sethi, The Energy and Resources Institute (TERI) (India)

11:30 Korea's low carbon journey: Jean Michel Laye, S&I Centre Director, Sampyo Cement (South Korea)

12:00 Calced clay binders – decarbonising concrete: Peter Hoddinott, Independent Consultant (UK)

12:30 Lunch

14:00 China's low carbon pathway: Grace Chen, China Cement Association (China)

14:30 Huaxin Cement's carbon neutral roadmap to 2050: Wang Jiajun, Vice President, Eco and New materials, Huaxin Cement (China)

15:00 Turning challenges into milestones – the dynamics of CCUS: Philip Glörfeld, Global Head of Business Development and Sales, thyssenkrupp Polysius GmbH (Germany)

15:30 Coffee break

16:00 Maximising alternative fuel use with the Fuelflex Pyrolyzer combustion system: Lars Skaarup Jensen, FLSmidth Cement (Denmark)

16:20 Patented hydrogen-based technology to improve combustion efficiency: Luis Novais, CCO, UTIS SA (Portugal)

16:40 AI process control use case – fuel mix optimisation for alternative fuels: Kenny Wong, CarbonRe (UK)

17:00 From data to action – the power of silo monitoring: Jean-Jacques Bois, SiloConnect (France)

WEDNESDAY, 11 JUNE 2025

09:00 Understanding global cement macro trends: Tony Hadley, THAA Ltd (Portugal)

09:30 Solutions for the green cement transformation: Carsten Eckhert, KHD Humboldt Wedag GmbH (Germany)

10:00 LVI's contribution to the reduction of CO₂ emissions in the Korean cement industry: Hans Nielsen, LV Technology (Thailand)

10:30 Coffee break

11:00 Case study – Kilncooler successfully deployed at Danyang plant: Dirk Schmidt, Kima Process Control GmbH (Germany)

11:20 Smart AFR management and the role of Computer Vision: Abhijit Kumar, Ripik.AI (India)

11:40 Best practices in alternative fuel handling: Luc Reiffel, Walter Materials Handling /ATS Group (France)

12:00 Challenges and solutions for conveying hard-to-handle bulk materials, from biomass to fly ash: Alan Tran, Aumund Asia (HK) Ltd (Hong Kong / Germany)

12:30 Lunch

14:00 Performance and environmental contribution of the MVR vertical roller mill: Phillip Hempel, Gebr Pfeiffer (Germany)

14:20 Boosting efficiency and cutting CO₂ with the ETA cooler: Jonas Schroeder, Claudius Peters Projects GmbH (Germany)

15:00 Fives FCB's cutting-edge technologies for CO₂ emissions reduction and carbon capture: Farah Diab, Fives FCB (France)

15:30 Coffee break

16:00 Refractory developments in the alternative fuels era: Pietro Cameli, Refratechnik Asia Ltd (Hong Kong)

16:20 Enhancing carbon capture with flue gas treatment solutions: Simone Romano, Redecam (Italy)

16:40 NOx control with TTR-G + deNOx burners + SNCR: Koki Hamada, Taiheiyo Engineering (Japan)

19:30 Gala Dinner & Entertainment

THURSDAY, 12 JUNE 2025

08:00-17:30 Plant tour to Hanil Cement, Danyang

*Conference programme is subject to change.

"Delivering business insight, market knowledge and technical expertise to the global cement industry for over 30 years."
