

<b>1</b>	<b>Industry performance and the sustainability challenge</b>	<b>9</b>
	<b>1.1 Benchmarking excellence in sustainability</b> .....	10
	Jim O’Brien – CSR Consulting, Ireland	
	<b>1.2 Rising to the sustainability challenge</b> .....	13
	Dr Michael Clark – Whitehopeleman, UK	
<b>2</b>	<b>Quarry operations and ecosystems</b>	<b>15</b>
	<b>2.1 Quarry rehabilitation at Asia Cement’s Hualien plant: harnessing nature-based solutions for biodiversity and landscape generation</b> .....	16
	Manon Burbidge and Joanna Qin Li – World Cement Association, UK, and Tzu-Pong Chang, Asia Cement, China	
	<b>2.2 Sustainability improvement in quarry extraction operations</b> .....	18
	Steve Franklin – Eltirus, Australia	
<b>3</b>	<b>CO<sub>2</sub> emissions and energy efficiency</b>	<b>21</b>
	<b>3.1 Green energy management</b> .....	22
	Nimesh Patel – Sanghi Industries Ltd, India	
	<b>3.2 Clinker cooler optimisation</b> .....	24
	Hartmut Meyer Clinker Cooler Consulting, Switzerland	
	<b>3.3 ORC waste heat recovery with Exergy’s Radial Outflow Turbine</b> .....	28
	Andrea De Finis – Exergy International srl, Italy	
	<b>3.4 Combatting climate change with renewable energy</b> .....	31
	Jitesh Singh Darmwal and Naveen Kumar Sharma – Udaipur Cement Works, India	
<b>4</b>	<b>Alternative fuels production and utilisation</b>	<b>33</b>
	<b>4.1 Co-processing of waste-derived fuels in the cement industry – best practice</b> .....	34
	Dr Kåre Helge Karstensen – Foundation for Scientific and Industrial Research (SINTEF), Norway	
	<b>4.2 Guidelines on pre- and co-processing of waste in cement production – use of waste as alternative fuel and raw materials</b> .....	41
	Steffen Blume – GIZ GmbH, Germany, and Sharmistha Nandi and A Pandey – Holcim Technology Ltd, Switzerland, and Dieter Mutz – University of Applied Sciences and Arts Northwestern Switzerland	
	<b>4.3 How to produce and use alternative fuels</b> .....	44
	Dr Hubert Baier – WhiteLabel-TandemProjects eU, Germany	
	<b>4.4 Continuous and sustainable development of the Wietersdorf plant: heading towards 100% alternative fuel rate</b> .....	55
	Florian Salzer – w&p Zement GmbH, Austria	
	<b>4.5 Substituting fossil fuels with alternative fuels in developing countries</b> .....	59
	Mauricio Giraldo – Argos, Colombia	
	<b>4.6 Complete solution for refuse-derived fuels</b> .....	62
	Jan Tuma – Beumer Group, Czech Republic	
	<b>4.7 Increasing the co-processing of alternative and biogenic fuels with PYROROTOR® technology</b> .....	64
	Matthias Mersmann – KHD Humboldt Wedag International AG, Germany	
	<b>4.8 Industry can do it</b> .....	67
	Patrick Crouzat, Gaël Le Piver, Max Vaccaro and Yan Huerre – Fives, France	
	<b>4.9 Refuse-derived fuel and accelerated carbonation technology</b> .....	71
	Dr Paula Carey – Carbon8 Systems, UK	
	<b>4.10 Enhanced AF use during decarbonisation</b> .....	73
	Tahir Abbas and Michalis Akritopoulos – Cinar Ltd, UK	
<b>5</b>	<b>Emissions monitoring and abatement</b>	<b>77</b>
	<b>5.1 Tackling noise, ground, water and dust emissions</b> .....	78
	Dr Michael Clark – Whitehopeleman, UK	
	<b>5.2 Understanding gaseous emissions</b> .....	80
	Dr Michael Clark – Whitehopeleman, UK	

<b>5.3 Regenerative emissions reduction</b> .....	84
Thomas Binninger – CTP Chemisch Thermische Prozesstechnik GmbH, Austria	
<b>5.4 Optimising baghouse filtration in cement plants</b> .....	87
Chris Polizzi – WL Gore & Associates, USA	
<b>5.5 Preventive explosion protection equipment</b> .....	89
Carsten Pries – robecco, Germany	
<b>5.6 Sustainability in the bag</b> .....	92
Sigrid Eder-Ince – Starlinger & Co GmbH, Austria	
<b>6 Grinding systems</b> .....	<b>95</b>
<b>6.1 Levers to pull for grinding process optimisation</b> .....	96
Dr Caroline Woywadt – Gebr Pfeiffer, Germany	
<b>6.2 Process development in cement grinding</b> .....	98
Jonas Knappert, Daniel Komorek, Sebastian Rösch and Dr Stefan Seemann – VDZ, Germany	
<b>6.3 Upgrading a high pressure grinding roll press</b> .....	101
Dr-Ing Thomas Hanstein, Dr-Ing Jörg Oligmüller and Kaushik Ghosh – Köppern, Germany	
<b>6.4 The modular grinding plant</b> .....	104
Dongjie Wu and Jialei Cui, CBMI, China	
<b>7 Clinker substitution</b> .....	<b>109</b>
<b>7.1 LC<sup>3</sup>: decarbonising the concrete industry</b> .....	110
Franco Zunino and Karen L Scrivener – École Polytechnique Fédérale de Lausanne, Switzerland	
<b>7.2 Producing ‘green cement’ with FCT’s clay calcining technologies</b> .....	114
Joel Maia – FCT Combustion GmbH, Austria, and Pedro Ladeira – FCT Combustion Inc, USA	
<b>7.3 FUTURECEM™, a limestone calcined clay technology for a low-carbon building industry</b> .....	118
Michele Di Marino and Stefano Zampaletta – Cementir Group, Italy	
<b>7.4 Sustainable cement manufacturing in India</b> .....	121
Manoj Kumar Rustagi, Dilip Makhija, Dr Jagabandhu Kole and Dr L R Majunatha – JSW Cement Ltd, India	
<b>7.5 Improved carbon footprint cements with new additives</b> .....	125
Laurent Guillot – Chryso, France	
<b>7.6 Using strength-enhancing cement additives</b> .....	129
Jeffrey Thomas, Michael Stanzel, Riccardo Stoppa and Josephine Cheung – GCP Applied Technologies, USA	
<b>7.7 Synthetic SCMs: a new paradigm of SCM production</b> .....	132
Dr Sada Sahu and Dr Vahit Atakan – Solidia Technologies, USA	
<b>8 Cement plants of the future</b> .....	<b>135</b>
<b>8.1 Carbon footprint control</b> .....	136
Tanmay Maitra and DH Thanki – ERCOM Engineers Pvt Ltd, India	
<b>8.2 Driving sustainability through innovation</b> .....	140
Dalmia Cement (Bharat) Ltd, India	
<b>8.3 Digital advances for attaining Industry 4.0</b> .....	144
Dr Anjan K Chatterjee – Conmat Technologies Pvt Ltd, India	
<b>8.4 AI-automated operation and Real Time 4.0 Optimisation</b> .....	150
Javier A Garcia Sedano – OPTIMITIVE SL, Spain	
<b>8.5 Keeping carbon emissions in check</b> .....	152
Matt Brinker – Command Alkon, USA	
<b>9 Towards Net Zero</b> .....	<b>155</b>
<b>9.1 CCUS in 2020-30</b> .....	156
Claude Loréa – Global Cement and Concrete Association, UK	
<b>9.2 Setting science-based targets</b> .....	159
Karl Downey – Science Based Targets initiative (SBTi)	
<b>9.3 C2PAT: from CO<sub>2</sub> to plastics</b> .....	161
Dr Joseph Kitzweger – Lafarge Zementwerke (Holcim) and Carbon2ProductAustria (C2PAT) GmbH, Austria
